“ *My heart goes out to the Reid family. Anson was a big part of our service team and great friend to everyone at the company that he would come in contact with. His work and detail in his work was great, couldn't say I've seen anyone better at it. Things haven't been the same, since he has been out. He was our guy that could always help us find or figure out something. We enjoyed cutting up and poking fun at each other, just a really good guy. He'd tell me stories of how he enjoyed taking walks at his sisters property, and that it would give him some peace. Anson, you will be missed. Prayers to Anson's family, and Rest In Peace my friend.*
