# Tribute Wall

MR

“ *My sincerest sympathies to the family and friends of Beate. I met Beate when we both worked in the library of Indiana University (Bloomington) in the 1980's. We were fortunate to have kept in touch over the years, even though I had not heard from Beate for quite some time. I kept writing, thinking that she was simply too busy living and enjoying her life, but hoping that she did find time to think of me. I have lost a dear, though long-distance, friend. May she find peace and light and may we all never forget what a wonderful human being Beate was. Maureen Riley, Boalsburg PA*
