JW

“ I worked with a Donald R Hadd in Michigan at the Department of Transportation in the early 2000’s. He was a very kind man to me and a good friend. He was a mentor and guide for me early in my career. I’m not sure if this is the same Donald Hadd but he did say that he planned to move to the Lafayette, LA area after he retired in the late 2000’s. He talked about loving the cuisine down there, especially poutine, which I had never heard of at that time. We lost touch after he retired but I frequently thought about him and wondered how he was doing. Rest in peace, my friend.
