“ Paul you were my first love and I was yours. We had a love that was so amazing. We started off young, but you were my everything. Then things started changing. You went through a lot with your accident. It was a long road for sure. We got away with a lot in all the hospital stays. I was there every night to relieve your mom. It breaks my heart that you are no longer here. It give me comfort that now you are now at peace and with no more pain. Love you and always will baby ☐☐ see you on the other side at some point.

“ Paityn was her Pops world. My Husband worked away a lot, and daily without fail, he would show up to spend just about every day with us. He would bring her healthy food and snacks, he would do many physical activities because to him her coordination was important. They would play, sing, ride bikes, anything and everything together. He made her so happy. And it healed part my little girl heart to se him shine as a grandpa or pop as he liked to be called. We would often go to to parks near UL (by dog park) and help/watch him make his bike jumps. And in Paul fashion, he rigged everything he could or maybe let's say engineered, to make life easier for her. We will always cherish that rich time in our life with him in it. He did the same for me for a time. He was unlike anyone else in the world and everyone who knew him will say the same. One of a kind. We will always Love you Dad.
