Tribute Wall

“ *Big'o live very dear person to me he took me in as family and we've had many moments together where He has expressed to me the wisdom that he has gone through in his years. he has always been a good friend. Even while on his deathbed he would never turn anybody down that ask him for help. always fun natured he even had good jokes he always had a song for every moment in life. And I will never forget you and may you pass into heaven with all of your parents and two kids.*
